GENERAL PROVISION OF HEALTH SERVICES.

These remain as outlined in previous Annual Reports.

Laboratory Facilities.

55 throat swabs, 17 specimens of sputum, 4 specimens of blood and 2 of faeces were submitted for bacteriological examination to the Clinical Research Association, London, and to the Emergency Public Health Laboratory Service, Horsham.

SANITARY CIRCUMSTANCES OF THE AREA

WATER SUPPLIES.

No changes have taken place in the sources of main water supply in the area. Samples of water from these supplies are submitted periodically for chemical analysis and bacteriological examination, and the results have been consistently satisfactory.

Ninety-six samples of water from existing wells and springs were analysed by the Public Analyst. The following results were obtained :-

Satisfactory	26
Unfit for drinking purposes (primary)	52
" " " " (repeat)	3
Satisfactory (repeat)	6
Unsatisfactory due to turbidity of the water	4

96

Main water has been laid on to sixteen properties where the water was found to be unsatisfactory.

DRAINAGE AND SEWERAGE.

The principal extension and improvement to Sewage Works carried out during the year was as follows :-

Withyham.

The enlargement of the St. John's Sewage Disposal Works, consisting of an additional filter bed, the provision of sludge digestion tanks and incidental works, was completed during the latter part of the year. The cost of this work is being paid by the Military Authorities.

ERADICATION OF BED BUGS.

Twenty-five visits were made in connection with the eradication of bed bugs, and disinfection was carried out. This work is supervised by the staff of the Public Health Department.

SANITARY INSPECTION OF THE AREA.

INFECTIOUS DISEASES.

Number of visits or inquiries made	354
Number of rooms disinfected	20

SLAUGHTERHOUSE REGULATIONS AND BYELAWS

There are in the district fourteen registered and thirteen licensed slaughterhouses and one knacker's yard.

The Government scheme of centralised slaughtering came into force on the 15th January, 1940, when the Ministry of Food took control of the slaughtering of all fat stock. The supervision by the Council's staff of the meat supplies remains unaltered and the inspection of carcasses at the two authorised slaughterhouses in this District is being carried out.

In September, 1940, the Ministry of Food requisitioned a slaughterhouse at Frant for the slaughtering of sheep and calves.

PUBLIC HEALTH AND HOUSING ACTS.

Repairs and improvements to one hundred and forty-six cottages were completed during the year, one thousand, two hundred and fifty-six visits being made regarding the necessary works.

BYELAWS RELATING TO HOP-PICKERS.

Nine farms in the district employed imported labour during the hop-picking season. This labour consisted of seventeen males, one hundred females and forty-two children. Thirteen visits were made in connection with the Bye-laws, when four defects were noted. Seven improvements were made during the year.

RATS AND MICE DESTRUCTION ACT.

A number of applications for advice on the destruction of rats were received during the year, and forty-nine visits were made in connection therewith.

In November, 1940, the Uckfield Rural District Council co-operated with the East Sussex County Council War Agricultural Executive Committee in paying, through representatives of the Farmers' Union, one penny per tail for all rats caught in the area during the three months November, 1940 to January, 1941 inclusive.

Five of the deaths from Non-Pulmonary Tuberculosis were patients for whom notifications had not been received.

DIPHTHERIA IMMUNISATION.

The Immunisation Scheme continued to make progress. Sixty-three clinics were held in Schools, conducted by general practitioners, and the immunisation of 917 children was completed. A further 186 children commenced treatment which was completed in 1941. Doctors reported the immunisation of 15 children in private practice.

AIR RAID PRECAUTIONS.

The recruitment and training of the Casualty Service personnel continued during the year. Full Courses of First Aid lectures were held throughout the district, and in addition shortened Courses were given to the Wardens in every parish.

Field dressings for Wardens were also supplied during the year and pouches, containing two triangular bandages and one dressing, were issued to the 437 wardens concerned.

Collective training, involving all the Services connected with Air Raid Precautions, was carried out and much useful information was obtained.

The conversion of two vehicles into ambulances was completed and these were stationed at Hartfield and Mayfield in February. Two further cars were purchased by the Council and took up duty as full time ambulances at Crowborough and Uckfield towards the latter part of the year. A full time ambulance was also stationed at Wadhurst, the vehicle being given by a Wadhurst resident and the maintenance being undertaken by the Council.

In January, through the generosity of Mr. J.R. Owen a full-time vehicle was provided for the conveyance of the Mobile Unit equipment. Up to this time, a hired vehicle had been used.

Fire extinguishers were purchased for both full-time and part-time ambulances and arrangements made for the camouflage of the vehicles.

When the enemy's air activities were intensified, the Casualty Services in the various parishes were called upon on many occasions and all functioned efficiently.

Given below is a summary of the enrolments in the Casualty Services up to the end of 1940 :-
